

Belt Crossover Walkway

Adjustable Handrail to Suit Headroom

Special Features:

- Walkway, ladders and handrails come as separate items to facilitate installation in remote locations.
- All assembly, using bolts and prefabricated structure clamps.
- Handrail height is adjustable from 400mm to 750mm for use in low headroom areas such as mines.
- Components are all steel and designed for safety and portability.

- Fully adjustable to suit conveyor.
- Your choice of finish. Standard finish is galvanised frame with painted handrails.
- Built to Australian Standards.
- 12 months guarantee.
